## **Aims**

The SEN and Disability Act 2001 extended the Disability Discrimination Act 1995 (DDA) to cover education. Since September 2002, the Governing Body has had three key duties towards disabled pupils, under Part 4 of the DDA:

- not to treat disabled pupils less favourably for a reason related to their disability;
- to make reasonable adjustments for disabled pupils, so that they are not at a substantial disadvantage;
- to plan to increase access to education for disabled pupils.

This plan sets out the proposals of the Governing Body of the school to increase access to education for disabled pupils in the three areas required by the planning duties in the DDA:

- increasing the extent to which disabled pupils can participate in the school curriculum;
- improving the environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services;
- improving the delivery to disabled pupils of information which is provided in writing for pupils who are not disabled.

It is a requirement that the school's accessibility plan is resourced, implemented and reviewed and revised as necessary. Attached is a set of action plans showing how the school will address the priorities identified in the plan.

## **Definition of Disability:**

Disability is defined by the Disability Discrimination Act 1995 (DDA):

'A person has a disability if he or she has a physical or mental impairment that has a substantial and long term adverse effect on his or her ability to carry out normal day to day activities.'

## **Vision and values**

At Castle View Primary School we are committed to giving all our children the opportunity and access to the whole school curriculum. We do this by taking account of pupils' needs, their safety and that of others. The achievements, attitudes and well-being of all our children matter. As a whole school our ethos is to promote respect for individuality of all our children, irrespective of ethnicity, attainment, age, disability, gender or background.

We actively seek to remove the barriers to learning and participation that can hinder or exclude individual pupils, or groups of pupils.

We acknowledge that there may be times when this is impossible or inappropriate, despite our wishes or best efforts.

## **Current school profile**

We currently have children who have needs such as:

- Asthma

- Eczema
- Rare syndromes
- ADHD
- ASD
- Allergies
- Hyper-mobility
- Visual impairment.
- Dyslexia
- Delayed speech and language
- Hearing impairment
- Cognitive difficulties
- Medical needs
- Mobility difficulties

We collect information from parent questionnaires, which are given at the point of pupil admission, so that we are as fully prepared as possible for their entry in to school. Medical contact details are gathered, as well as any outside agency involvement. This information is deemed only by the parent.

**Accessibility needs:**

The action plan ensures that:

- The school draws on the expertise of external support.
- The SENCO has an overview of the needs of Special Educational needs pupils and disabled pupils.
- There are high expectations.
- There is appropriate deployment and training of staff.
- Successful practice is shared within the school.
- Disabled pupils have access to extra-curricular activities, wherever safe to do so.
